(CUREB-B Clearance # 109958)

Hello, my name is Fred and I am a student in interactive multimedia and design. I would like

you to participate in a user study for my capstone project.

This study aims to refine the design of Souper Showdown. This study involves playing a game designed by my group to test specific mechanics for 15 minutes. We do not foresee any risks

designed by my group to test specific mechanics for 15 minutes. We do not foresee any risks in participating in this study beyond normal game playing. However, we will take precautions to

protect your identity (all responses will be anonymous).

You may withdraw at any time, up to completion of the study. If you choose to withdraw, all the

information you provided will be destroyed.

All research data, including audio-recordings and notes will be encrypted. Any hard copies of

data (including any handwritten notes or USB flash drives) will be kept in a secure location.

Research data will only be accessible by me and my group.

Once the project is completed, all research data will be kept until the end of the current

academic year (in April) after the group has finished and will be used to refine the design of our

project. After this time, all data will be destroyed.

The ethics protocol for this project was reviewed by the Carleton University Research Ethics

Board, which provided clearance to carry out the research. Should you have any ethical

concerns with the study, please contact Dr. Bernadette Campbell, Chair, Carleton University Research Ethics Board-B (by phone: 613-520-2600 ext. 4085 or at ethics@carleton.ca). For all

other questions about the study, please contact the researcher.

You can also reach me at fredgauthier@cmail.carleton.com. My supervisor can be reached at

DavidThue@cunet.carleton.ca.

Are there any questions or need clarification?

Do I have your permission to begin: \_X\_Yes \_\_\_\_No (If no, thank them for their time)

Date: March 3, 2022

Participant's name/Pseudonym/Initials: Justin
